

Why Choose VA Health Care

Cost

A person who served in the active military, naval, or air service and was discharged or released under conditions other than dishonorable may qualify for VA health care benefits. A financial assessment will determine individual eligibility levels.

Convenience

With more than 1,400 sites of care including hospitals, community clinics, community living centers, domiciliary care, and readjustment counseling centers, a VA facility is just around the corner from you ... and here for you.

Comfort

When you're here, you're home. There's a special camaraderie shared here; an environment of understanding between Veterans. Our staff are specially trained to treat issues unique to Veterans like you.

Comprehensive Care

We attend to each Veterans' total care. From a health maintenance plan and preventive medicine needs; to managing chronic conditions and staying fit, we provide complete care and information to help you live well and stay healthy.

Quality

VA care is recognized as an industry leader in Veteran-specific health care, patient safety, technology and customer care.*

Your Best Choice in Veteran Care **VA Health Care**

Returning Service Members *Health Benefits and Services*

VA Butler Healthcare provides priority healthcare and benefits assistance for active duty and activated members of the National Guard or Reserves. Recently discharged Veterans who served in combat locations may be eligible for VA health care for up to five years after their release from service for conditions potentially related to their service (and may receive VA dental care if eligible and within 180 days post discharge).
